Objective:

I am a responsive website designer and WordPress expert capable of implementing a website from start to finish, using my own initiative, experience and resources. My goal is to always deliver outstanding results. I am able to jump easily from being a designer, a coder, a developer. This adaptability can also be seen in my work where I'm able to handle any task about website design & development, graphics design, virtual assistant, multimedia or computer troubleshooting.

As a computer science engineer my objective is to make a positive impact on clients, co-workers, and the Internet using my skills and experience to design compelling and attractive websites.
